

## **Barefoot and naked**

Let me in to explain  
Don't let me, stand in the rain  
It wasn't like it seemed to be  
Not for you , and not for me

I don't know, what to say  
Shall I go, or do you want me to stay  
If I could I would turn back the wheel  
If I could I'd tell you how I feel

**Barefoot and naked**  
**I stand alone**  
**In front of you and regret what I have done**  
**Barefoot and naked**  
**Don't let me fall**  
**Because there was nothing at all**  
**Because there was nothing at all**

Darling, open the door  
I won't ask you for more  
Give me air to breathe  
Give our love a chance to live

I'm confused and I know why  
I could scream, I could die  
An invisible fear I feel inside  
And I try to suppress what I cannot hide

**Barefoot and naked**  
**I stand alone**  
**In front of you and regret what I have done**  
**Barefoot and naked**  
**Don't let me fall**  
**Because there was nothing at all**  
**Because there was nothing at all**

*Nothing at all..... at all... there was nothing at all... don't let me fall...*

**Barefoot and naked.....**
