

Ice – a – lation

A chilly breeze is in the air
Unnoticed, unaware
Makes you feel cold inside
At day and night

It's coming from the land " Nowhere"
Ain't the question if you care
There is neither fence nor wall
To stop it at all

*For you, for me
For all it will be
A change in our lives simply called*

Ice – a – lation

Ice – a – lation

Ice – a – lation

Feelings don't follow rules
Are the language of the fools
Use your elbows, be a man
That's daddy's plan

Improve yourself a whole life long
That makes you really strong
Be better than the rest
Simply the best

*For you, for me
For all it will be
A change in our lives simply called*

Ice – a – lation

Ice – a – lation

Ice – a – lation

*Without looking back just follow your way
Life ain't a compromise
What you win is what you'll lose the next day
And truths become lies*

Ice – a – lation

Ice – a – lation

Ice – a – lation
