

Just this word

Words are said so easily, even if they show the way

There`s one “yes”, taht cahnges lives, that`s the one we gonna say

Now we`re standing to together, just you and just me

And ther`s no other place, where I`d rather like to be

Just this word

Means so much to me

Especially

When it comes from your heart

Just this word

Is for the eternity

That I will always be a part, a part of you

Every storm has made us strong, stronger than ever before

Now we`re here to show our love, but we wanna have more

And we followed our heart, we followed our dream

And with this little word, there is so much to win

Just this word

Means so much to me

Especially

When it comes from your heart

Just this word

Is for the eternity

That I will always be a part,

We are ready for this moment, ready for a new life

Soon we will be married, be husband and wife

2x

Just this word

Means so much to me

Especially

When it comes from your heart

Just this word

Is for the eternity

That I will always be a part, a part of you

Just this word

Means so much to us
