

Talk to me

I believe in our promise
I believe in our time together
We seemed to be, one of a kind

I believe in our first kiss
I believe in every moment with you
I seemed to fly, as high as a kite

*Then you, left me,
Without saying a word,
You just packed your stuff
Wasn't it all enough*

**Talk to me, just talk to me
I am missing your voice
Every night, every day
Talk to me, just talk to me
I can't live anymore without you, without you**

I believe in our first date
I believe in love at first sight
All seemed to be in harmony

I believe in our first night
I believe in the way you touched me
I seemed to be, in paradise

*Then you turned `round
Without looking at me
You just closed the door
I thought there was more*

**Talk to me, just talk to me
I am missing your voice
Every night, every day
Talk to me, just talk to me
I can't live anymore without you,
without you, without you, without**

Talk to me, just talk to me

.....
